

Laurance (Larry) Rosenberg

Larry Rosenberg was born in Baltimore, Maryland and has been happily living in North Raleigh since 2001. As a performance consultant for Genworth Financial, Larry develops and delivers training programs, and coaches his clients to help them reach their full potential. Spanning more than 24 years, Larry has worked with institutions of all sizes on projects in the area of organizational effectiveness. Specific areas of focus include strategic planning, business process design, team building, and change management. His formal education includes a Masters in Business Coaching from NC State University, an MBA from the John Hopkins University, and a Bachelors degree in Electrical Engineering from the University of Maryland. Additional certifications include the Tilt360 Leadership Predictor, 6-Sigma Quality Black Belt, DISC behavioral style instrument, Socratic Selling, Creating Client Value, and Avatar Master

A theme for Larry both inside and outside of the workplace has been helping organizations and individuals grow. He held an adjunct professor position at the John Hopkins School of Continuing Studies where he taught Decision Sciences courses. He served on the TODN (Triangle's Organizational Development Network) board for 2 years (2007-2008). And, as an Avatar Master, continues to share self-exploration tools to help people identify and manage their beliefs in order to create a life they prefer.

Larry first attended Unity in January of 2009 and became a member in June. He quickly became active in book study groups and other classes designed to augment his existing spiritual practices (meditation, yoga, and reading). Currently he is leading a team of talented Church members to create and deliver the very first "Leaders in Life" program.

Larry's personal statement on why he wants to be on the board of UCT: Service to Others is the highest form of Spiritual Evolution (Personal Responsibility → Compassion → Service to Others). Globally my intention is to contribute to the Creation of an Enlightened Planetary Civilization. Locally, my intention is to support this Church as it is a home for us to help each other along our spiritual paths.
